

Special Issue

IoT-Oriented Infrastructures for Secured Smart Applications in Cities, Industry, and Societies

Message from the Guest Editor

This Special Issue will promote state-of-the-art research covering all aspects of the design, implementation, and testing of intelligent, low-power IoT systems and applications that include smart algorithms or management processes or exploit augmented and interactive control interfaces. High-quality contributions addressing related theoretical and practical aspects are expected.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief
