

Special Issue

Clean and Efficient Use of Energy: 2nd Edition

Message from the Guest Editors

We are pleased to share the success of our Special Issues “Clean and Efficient Use of Energy”. We now seek to launch the second volume of this Special Issue “Clean and Efficient Use of Energy: 2nd Edition”. This Special Issue is dedicated to the clean and efficient use of energy. The topics of interest include but are not limited to the following: 1.energy conversion and utilization; 2.Conversion and utilization of CO₂; 3.Elimination of pollutants in the use of energy; 4.Electrocatalysis in energy applications; 5.Emissions and controls in the use of energy; 6.Clean alternative fuels; 7.Clean and efficient utilization of coal; 8.Hydrogen storage and release; 9.Clean utilization of methanol, ethanol and derived fuels; 10.Evaluating and implementing alternative energy approaches. It is recommended to send a tentative title and a short summary of the manuscript to Energies Editor Mrs. Cicilia .

Guest Editors

Dr. Gangli Zhu
Prof. Dr. Kegong Fang
Prof. Dr. Shenghua Liu

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
