

## Special Issue

# Renewable Energy Integration and Microgrid: Opportunities and Challenges

### Message from the Guest Editor

This Special Issue covers a range of topics exploring the opportunities and challenges associated with the integration of renewable energy sources into microgrids, including but not limited to energy storage technologies, control and management strategies, economic and financial considerations, policy and regulatory frameworks, and case studies of successful microgrid implementations. The aim of this Special Issue is to provide a platform for researchers, practitioners, and policymakers to share their knowledge and experience related to renewable energy integration and microgrids. The ultimate goal is to advance our understanding of the opportunities and challenges associated with these emerging technologies and to provide insights into best practices for their successful implementation.

### Guest Editor

Prof. Dr. Junwei Lu

School of Engineering and Built Environment-Electrical and Electronic Engineering, Griffith University, Gold Coast, Australia

### Deadline for manuscript submissions

closed (31 March 2024)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
