

Special Issue

Renewable Energy Systems (Solar, Wind) and Grid Integration

Message from the Guest Editors

This special issue is dedicated to exploring the latest advancements in renewable energy systems, particularly solar and wind energy, and their integration with the grid. It aims to bring together experts from different fields to share their knowledge, experiences, and insights on the challenges and opportunities associated with the integration of renewable energy into the grid. The focus will be on topics such as:

- Solar and wind energy systems and technologies
- Grid integration and management of renewable energy systems
- Energy storage systems for renewable energy integration
- Transformerless inverters
- Renewable energy policy, regulations, and incentives
- Grid-scale renewable energy projects and case studies
- Integration of renewable energy in microgrids and smart grids
- Renewable energy and grid security, reliability, and stability
- Renewable energy forecasting and demand response management
- Economic and financial aspects of renewable energy integration

Guest Editors

Dr. Sherif Zaid

Electrical Engineering Department, Faculty of Engineering, University of Tabuk, Tabuk 47913, Saudi Arabia

Dr. Ahmed Kassem

Electrical Engineering Department, Faculty of Engineering, Sohag University, Sohag 82524, Egypt

Deadline for manuscript submissions

closed (18 April 2024)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
