# Energy Transitions: Low-Carbon Pathways for Sustainability

### Message from the Guest Editors

The Special Issue “Energy Transitions: Low-Carbon Pathways for Sustainability” calls for an in-depth discussion on the future directions of low-carbon development in the energy industry, which will affect the adaptation of the energy structure, sustainable development and circular economy. Original scientific articles and reviews are welcome in this Special Issue.

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
