

## Special Issue

# Environmental Life Cycle Assessment of Electric Vehicles

### Message from the Guest Editor

Topics of interest for publication include but are not limited to the following:

- The environmental assessment of electric vehicles with life cycle approach;
- The carbon footprint and water footprint of electric vehicles;
- The life cycle assessment of electric vehicle batteries;
- The LCA of smart grids for electric vehicles;
- A comparative analysis of alternative fuels in vehicles;
- Circular economy perspectives in electric vehicles.

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
