

Special Issue

Renewable Energy and Energy Efficiency in Civil Engineering

Message from the Guest Editors

The 2nd International Conference on Civil Engineering and Materials (ICCEM'2024) aims to bring together leading academic scientists, researchers, and industry professionals to exchange and share their experiences and research findings on all aspects of civil engineering and materials. This Special Issue of *Energies* aims to collect publications related to the scientific topic "Renewable Energies and Energy Efficiency" including, but not limited to, the following: Emerging materials for energy storage and management; Energy storage and conversion; Energy systems and efficiency; Green hydrogen and fuel cells. We invite contributions that push the boundaries of knowledge in these areas and foster advancements in sustainable practices.

Guest Editors

Prof. Dr. Khadija Haboubi

Dr. Yahya El Hammoudani

Prof. Dr. Issam Hanafi

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
