Management Challenges Facing Renewable Energy: An Operational and Strategic Approach

Message from the Guest Editor

Warm welcome to contribute, the topics of interest for publication include but are not limited to:

- Conflict management challenges facing renewable energy;
- Data management challenges facing renewable energy;
- Environmental management challenges facing renewable energy;
- Financial management challenges facing renewable energy;
- Innovation management challenges facing renewable energy;
- Knowledge management challenges facing renewable energy;
- Managerial and organizational cognition challenges facing renewable energy;
- Organizational behavior challenges facing renewable energy;
- Quality management challenges facing renewable energy;
- Resource management challenges facing renewable energy;
- Risk management challenges facing renewable energy;
- Supply chain management challenges facing renewable energy;
- Technology and innovation management challenges facing renewable energy.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief
