

## Special Issue

# Multilevel Power Converters Control and Modulation Techniques

### Message from the Guest Editors

This Special Issue will deal with novel control and modulation techniques specifically developed for multilevel power converters. Topics of interest for publication include but are not limited to:

- New modulation strategies for multilevel converters;
- New digital models for analysis and control of multilevel converters;
- Impulsive control techniques for multilevel converters;
- Impulsive observation techniques for multilevel converters.

---

### Guest Editors

Prof. Dr. Concettina Buccella

Department of Information Engineering, Computer Science and Mathematics, University of L'Aquila, 67100 L'Aquila, Italy

Dr. Stefano Di Gennaro

1. Department of Information Engineering, Computer Science and Mathematics, University of L'Aquila, 67100 L'Aquila, Italy

2. Center of Excellence DEWS, University of L'Aquila, 67100 L'Aquila, Italy

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba  
Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
