

Special Issue

Machine Learning and Complex Networks Analysis

Message from the Guest Editors

As , we are pleased to invite you to submit manuscripts to a Special Issue of *Energies* on the subject area of “Machine Learning and Complex Networks Analysis”.

Machine learning and complex networks are increasingly popular and pervasive approaches, which have demonstrated their validity across multiple research and application fields—to the point that many of these fields have received a further boost thanks to them.

This Special Issue is focused on the application of ML techniques and CN analysis to methods, systems, applications, and research related to energy, exergy and energetics.

Keywords:

Artificial neural networks/deep learning
ML monolithic/ensemble methods
ML performance measures
Clustering techniques
Scale-free/small-world networks
Spatial networks/spatial modular networks

Guest Editors

Prof. Dr. Giuliano Armano

Department of Mathematics and Computer Science, University of Cagliari, 09124 Cagliari, Italy

Dr. Paolo Attilio Pegoraro

Department of Electrical and Electronic Engineering, University of Cagliari, 09123 Cagliari, Italy

Deadline for manuscript submissions

closed (31 March 2022)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
