

Special Issue

Alternative Fuels for Marine, Aviation and Vehicle Transportation Sectors: Production, Propulsion and Power Generation Technologies

Message from the Guest Editors

we kindly invite submissions relevant to production technologies of alternative fuels, either as green fuels or blue fuels or grey fuels, combustion of alternative fuels in internal combustion engines, gas turbines, steam turbines and combined cycles, electrochemistry power generation and propulsion systems utilizing alternative fuels, such as fuel cells with hydrogen carriers, on-board storage and distribution of alternative fuels and alternative fuels' supply to propulsion systems.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief
