

Special Issue

Methanol Fuel Cells 2019

Message from the Guest Editors

In this Special Issue of *Energies* on methanol fuel cells, articles addressing development components, systems, cost analysis, crossover, reaction mechanisms, performance and durability of Direct methanol fuel cells (DMFCs) are requested. Fundamental and technical studies dealing with recent results and advances in the field of DMFCs, featured papers, and review articles providing an analysis of the state-of-the-art and future perspectives for this technology are warmly invited.

Keywords:

- DMFC
- Electrocatalysis
- Catalysts
- Methanol Oxidation
- ORR
- CO
- Catalyst Support
- Stability
- Degradation

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
