

Special Issue

Machine Learning Applications to Operation, Control and Protection of Microgrids

Message from the Guest Editors

Prospective authors are invited to submit their original contributions or survey papers for publication in *Energies*. Topics of interest for this special issue include but are not limited to the following topics in the area of machine learning application to microgrids and distributed generation systems:

- Protection, reliability and resilience;
- Proactive protection in AC and DC microgrids;
- Adaptive, robust and fault-tolerant control strategies;
- Power quality and harmonics;
- Lifetime modelling, condition monitoring, and failure prediction;
- Design and expansion planning;
- Integration of renewable energy sources;
- Control and operation of energy storage devices;
- Operation and energy management systems;
- Optimized and coordinated management of flexible energy resources;
- Electricity markets;
- Industrial, experimental, and hardware-in-the-loop tests and validation.

Guest Editors

Prof. Dr. Mehdi Savaghebi

Prof. Dr. Josep M. Guerrero

Prof. Dr. Hannu Laaksonen

Deadline for manuscript submissions

closed (30 September 2021)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
