

## Special Issue

# Optimization and Control of New Energy Systems

### Message from the Guest Editors

This Special Issue aims to make an effective contribution to highlight all solutions, methodologies, approaches, and tools to collect first-class research along this direction, focusing on the most recent investigations and studies on optimization and control strategies for new power system. Potential topics aims at covering themes including but not limited to:

- Modelling and simulation of renewable energy systems;
- Operation planning and control of energy storage systems;
- Application of optimization techniques such as meta-heuristic algorithms, reinforcement learning, and neural networks to energy systems and grids;
- Control strategies such as fuzzy logic control, sliding-mode control, feedback control, perturbation/disturbance observer-based control, H-infinity control, and backstepping control for energy systems and grids;
- Approaches for the optimized design of architectures and sizing of energy systems and grids;
- Solutions and techniques for energy generation, conversion, distribution, storage, and use (e.g., renewable energy generation, energy storage systems, etc.).

### Guest Editors

Prof. Dr. Wei Yao

Prof. Dr. Bo Yang

Prof. Dr. Lin Jiang

Prof. Dr. Chuan-Ke Zhang

Prof. Dr. Chao Duan

Dr. Yaxing Ren

### Deadline for manuscript submissions

closed (31 March 2023)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
