

Special Issue

Advanced Optoelectronic Applications of Novel Organic Semiconductors

Message from the Guest Editor

The is inviting submissions for a Special Issue of *Energies* on the subject area of "Advanced Optoelectronic Applications of Novel Organic Semiconductors". In this Special Issue, we will focus on any relevant optoelectronic device applications based on organic materials. Topics of interest for publication include but are not limited to the following:

- Organic solar cells;
- Polymer solar cells;
- Hybrid organic–inorganic solar cells;
- Non-fullerene organic solar cells;
- Non-fullerene polymer solar cells;
- Tandem organic solar cells;
- Tandem polymer solar cells;
- Organic light-emitting diode;
- Polymer light-emitting diode;
- Hybrid organic–inorganic light emitting diode.

Guest Editor

Dr. Anastasia Soultati

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
