

Special Issue

Advances in Fuel, Catalyst & Lubricant Technologies for Energy Landscape Transformation and Achieving Sustainable Development Goals

Message from the Guest Editors

Dear colleague, This Special Issue welcomes manuscripts (Research/Reviews) from the experts working on identified issues of fuel, catalysts, and lubricants towards the advancement of their application that will potentially lead to future sustainable energy supply and utilisation. The following are some of the topics, but not limited to:

- Advanced fuel (conventional/non-conventional, liquid/gaseous) production and fuel property improvement.
- Alternative fuels, including hydrogen, biofuels, and waste-derived fuels.
- Advancement in energy-efficient combustion processes.
- Lubricants synthesis and tribological analysis of applications.
- Catalysts, including nano-bio-catalysts synthesis and applications.
- Emissions capture and avoidance from renewable energy value chains.
- Advancement in waste-to-fuel production processes.
- Bioethanol, biodiesel, and biomethane.
- Catalysts for Fischer-Tropsch synthesis.
- Application of catalysts in gas Separation and storage technologies.

Guest Editors

Dr. Hazrat Ali

School of Engineering & Technology, Central Queensland University, Rockhampton, QLD, Australia

Dr. Islam Md Rizwanul Fattah

School of Civil and Environmental Engineering, Faculty of Engineering and I.T., University of Technology Sydney, Ultimo, NSW 2007, Australia

Deadline for manuscript submissions

closed (20 December 2023)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
