

Special Issue

New Challenges in Economic Development and Energy Policy

Message from the Guest Editors

This Special Issue aims to collect theoretical and empirical papers focusing on the challenges surrounding green growth and energy consumption, with particular attention given to the energy transition. It will also encourage researchers worldwide to collaborate to develop more multifaceted research in this field. Areas discussed in this Special Issue will include, but are not limited to, the following topics:

- Energy transition;
- The nexus between economic development and renewable generation;
- Government policies to support energy transition;
- Carbon neutrality;
- Social effects of the energy transition.

Guest Editors

Dr. Giuseppe Scandurra

Department of Management Studies and Quantitative Methods,
Parthenope University of Naples, 80133 Naples, Italy

Dr. Alfonso Carfora

Department of Economics and Law, University of Macerata, 62100
Macerata, Italy

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
