

## Special Issue

# Challenges and Opportunities in Net-Zero Building Energy Efficiency Technologies

### Message from the Guest Editor

This Special Issue aims to collect innovative solutions reported to date in any field of net-zero building energy aspects. Various electricity generation technologies considered suitable for building application, energy storage, artificially controlled user behaviour and smart building energy management systems are considered for the contribution to net-zero within the building sector. *We look forward to receiving your contributions.*

### Guest Editor

Prof. Dr. Tapas Mallick

Environment and Sustainability Institute, University of Exeter, Penryn,  
Cornwall TR10 9FE, UK

### Deadline for manuscript submissions

closed (25 March 2024)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
