

Special Issue

Progress in Power-to-Gas Energy Systems

Message from the Guest Editor

When *Energies* contacted me with an invitation to become their in a Special Issue completely dedicated to power-to-gas, I thought about all the results waiting for publication on your and my desks and could not say no. This is how I have come to contact you today with the kind invitation to join me and take the chance to make some noise about power-to-gas-related results from our various research projects. The title of the Special Issue will be broad to give space for as many interesting pieces of research as possible, no matter how small or detailed they may appear at first glance. We shall invite technical as well as theoretical papers, and all suggestions, regional contexts, and technologies related to hydrogen and power-to-gas are welcome to be suggested by all of you.

- power-to-gas
- P2G
- PtG
- hydrogen
- H₂
- decarbonization
- energy transition
- E-fuels
- energy conversion
- energy storage
- energy system
- energy technology

Guest Editor

Dr. Johannes Schaffert

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
