

## Special Issue

# Energy Management in Prosumer-Rich Distribution Networks

### Message from the Guest Editors

As , we are pleased to invite you to submit your relevant research results to be considered for publication in this Special Issue of *Energies* on “Energy Management in Prosumer-Rich Distribution Networks”. Topics to be addressed in this Special Issue include (but are not limited to) the following:

- Optimal sizing and device selection of prosumers;
- Optimizing prosumers’ profit in the electricity market environment;
- Electricity market models and architecture in the prosumer-rich distribution network;
- Impact of prosumers on power quality;
- Load management in the prosumer-rich distribution network;
- Integration of electric vehicle and energy storage in the prosumer-rich distribution network;
- Protection coordination in the prosumer-rich distribution network.

---

### Guest Editors

Dr. Krešimir Fekete

Faculty of Electrical Engineering, Computer Science and Information Technology, Osijek, Croatia

Dr. Zvonimir Klaić

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
