

Special Issue

Advanced Control, Operation and Energy Management of Distribution Networks and Smart Grids

Message from the Guest Editors

As , my co-editors and I are inviting submissions to a Special Issue of *Energies* on the subject area of “Advanced Control, Operation and Energy Management of Distribution Networks and Smart Grids”. This Issue aims to examine, present and disseminate the latest developments and research efforts on this subject. All types of research approaches are equally acceptable: experimental, theoretical, simulation, optimization and their mixtures. Topics of interest for publication include, but are not limited to:

- Integration of renewable energy sources;
- Energy storage systems for grids;
- Energy management strategies;
- Energy supply reliability;
- Load forecasting and scheduling;
- Island microgrids;
- Smart grids and microgrids;
- Smart energy production and distribution;
- Fault monitoring technologies;
- Reliability of power distribution networks.

Guest Editors

Dr. Jacob G. Fantidis

Department of Physics, International Hellenic University, Agios Loukas, 65404 Kavala, Greece

Dr. Antonis Tsikalakis

Department of Electrical and Computer Engineering, Hellenic Mediterranean University, Heraklion Estavromenos, 71410 Heraklion, Greece

Deadline for manuscript submissions

closed (24 October 2024)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
