

Special Issue

Biomass Wastes for Energy Production 2023

Message from the Guest Editors

This Special Issue on “Biomass Wastes for Energy Production” aims to publish novel advances of waste-to-energy technologies from experimental and computational perspectives. Topics include but are not limited to:

- Biomass wastes: availability, characterization, and role on circular economy;
- Progress in waste-to-energy technologies;
- Computational models for biomass-based energy generation;
- Cost and performance analysis of waste-to-energy technologies;
- Life cycle analysis of waste-to-energy technologies.

Guest Editors

Dr. Eliseu Monteiro

Faculty of Engineering, University of Porto, 4200 Porto, Portugal

Dr. Sérgio Ferreira

CT2M—Centre for Mechanical and Materials Technologies, Mechanical Engineering Department, Minho University, 4804-533 Guimarães, Portugal

Deadline for manuscript submissions

closed (30 April 2023)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
