

## Special Issue

# Economic Analysis of Nuclear Energy

### Message from the Guest Editors

The articles included in this Special Issue will provide in-depth examinations of the economic implications of nuclear energy technology, drawing on empirical data and advanced economic methodologies. It will also feature research articles, case studies, and reviews discussing cost theory models applicable to nuclear energy, along with the economic advantages and challenges associated with integrating nuclear energy into multi-energy systems. The topics of the Special Issue include but are not limited to:

- Nuclear plant cost-effectiveness assessments;
- Economic modeling and theory of nuclear plant;
- Economic benefits from modular technology;
- Economic and cost analysis of nuclear fuel cycle and waste management;
- Economic analysis of next-generation nuclear energy technologies;
- Balance of economic benefits and small reactor safety criterion;
- Economic comparison with other energy sources;
- Economic review of nuclear plant;
- Investment strategies;
- Policy implications.

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Editor-in-Chief

Prof. Dr. Enrico Sciubba  
Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
