

Special Issue

Rock Burst Disasters in Coal Mines

Message from the Guest Editors

This Special Issue aims to highlight the state-of-the-art findings in rock bursts, and to address critical issues for the global mining industry. Original theoretical research articles, review articles and case studies are welcome. Potential topics include, but are not limited to, the following:

- Long-term stability analysis of deep surrounding rocks;
- Fracture mechanism of surrounding rocks in deep excavation;
- Occurrence mechanism of rock bursts in coal mines;
- Monitoring and early warning of rock bursts;
- Pressure relieving and impact reduction mechanism for rock bursts;
- Comprehensive prevention system of rock bursts.

Guest Editors

Dr. Yulong Chen

Prof. Dr. Junwen Zhang

Dr. Jianhang Chen

Dr. Xuejie Deng

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
