

## Special Issue

# Rock Burst Disasters in Coal Mines

### Message from the Guest Editors

This Special Issue aims to highlight the state-of-the-art findings in rock bursts, and to address critical issues for the global mining industry. Original theoretical research articles, review articles and case studies are welcome. Potential topics include, but are not limited to, the following:

- Long-term stability analysis of deep surrounding rocks;
- Fracture mechanism of surrounding rocks in deep excavation;
- Occurrence mechanism of rock bursts in coal mines;
- Monitoring and early warning of rock bursts;
- Pressure relieving and impact reduction mechanism for rock bursts;
- Comprehensive prevention system of rock bursts.

---

### Guest Editors

Dr. Yulong Chen

Prof. Dr. Junwen Zhang

Prof. Dr. Jianhang Chen

Dr. Xuejie Deng

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba  
Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
