

Special Issue

Advanced Developments and Challenges in Refrigeration and Energy Systems

Message from the Guest Editor

This Special Issue aims to collect contributions focused on the development and optimization of sustainable refrigeration technologies across multiple applications and contexts. Our objective is to provide a platform for sharing the latest results in the field, encouraging the exchange of ideas and experiences among researchers working on innovative solutions for a future of low-impact refrigeration.

Guest Editor

Dr. Luca Cirillo

Department of Industrial Engineering, University of Naples Federico II,
P.le Tecchio 80, 80125 Napoli, Italy

Deadline for manuscript submissions

10 December 2025

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
