

Special Issue

Advanced Regulations and Strategies for Energy Management and Investment

Message from the Guest Editors

The purpose of this Special Issue is to introduce and disseminate the latest research regarding advanced regulations and strategies of energy management and investment, in order to promote more scholars' research in this field, thereby improving energy efficiency and reducing energy consumption costs.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief
