# Selected Papers from SEEP2017: The 10th International Conference on Sustainable Energy and Environmental Protection

### Message from the Guest Editors

The demands for effective exploitation of energy, utilization of alternative energy sources, and the design of advanced energy systems are coming to the fore. In order to meet these demands in the best possible way, SEEP 2017 will take place, where we want to create an environment for exchanging information between researchers from universities and institutes, industrial experts, and PhD students. This will enable discussions regarding innovative solutions, successful practical applications, and different energy scenarios, which will be a significant contribution to sustainable energy development. SEEP 2017 is a conference for you to be informed and inspired regarding energy activities worldwide.

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
