Special Issue

Advancements in Probabilistic Safety Assessment of Nuclear Energy for Sustainability

Message from the Guest Editor

The special issue entitled Advancements in Probabilistic Safety Assessment of Nuclear Energy for Sustainability aims to introduce and share the potential enabling methodologies to make breakthroughs for PSA. The issue provides a good opportunity to intensively deal with challenging areas of developments and share them with worldwide distinguished experts. We are trying to pioneer upcoming potentials of the PSA such that nuclear energy can contribute to mankind in a clean and green manner.

- Probabilistic Safety Assessment
- Nuclear Safety
- Epistemic and Aleatory Uncertainties
- Defense-in-Depth

Guest Editor

Prof. Gyunyoung Heo

Department of Nuclear Engineering, Kyung Hee University, 1732 Deogyeong-daero, Giheung-gu, Yongin-si 17104, Gyeonggi-do, Korea

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
