

Special Issue

Sustainable Agriculture and Food Supply: Scientific, Economic and Policy Analysis

Message from the Guest Editor

Agriculture, food industry, and food distribution are of key importance to each economy for a wide range of reasons, including the essential role in ensuring food security, balancing the labor market, improving the population's income level, as well as boosting international trade and economic growth. The aim of this Special Issue of *Energies* is to open the floor for a scientific discussion around the trends, drivers, and challenges for sustainable agriculture and food supply at the local, regional, national or global level. Original research papers presenting theoretical insights and/or empirical and policy-oriented analyses related to social, economic or environmental dimensions of a sustainable agri-food system and rural areas are welcome. Submissions employing various quantitative methods or qualitative analyses, as well as review articles are strongly encouraged.

Guest Editor

Prof. Dr. Karolina Pawlak

Department of Economics and Economic Policy in Agribusiness,

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
