

Special Issue

Sustainable Logistics and Supply Chains during and after Pandemic COVID-19

Message from the Guest Editors

New challenges during and after pandemic Covid -19 has been creating the growing demand for the sustainable and innovative logistics, both within local and global supply chains, including the reduction of their negative environmental impact related to extensive energy consumption. This Special Issue covers the following topics in relation to the pandemic Covid-19 situation:

- Sustainable city logistics and supply chains
- Last mile delivery, return and reverse logistics
- Re-configuration and risk management of global supply chains
- Humanitarian logistics
- Energy consumption in global vs. local supply chains

Guest Editors

Prof. Dr. Jarosław Witkowski

Prof. Dr. Maja Kiba-Janiak

Prof. Dr. Russell Thompson

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
