

## Special Issue

# Sustainable Shared Mobility: Current Status and Future Prospects

### Message from the Guest Editor

This Special Issue is dedicated to the current status and future prospects of the sustainable shared mobility market. Due to the very wide range of topics related to shared mobility services, this Special Issue will be interdisciplinary. Any research that includes analysis of the existing practices of the functioning of shared mobility and shared electric mobility systems, developed mathematical, business, and descriptive models, calculations, forecasts, plans and development analyses, comparative analyses, advanced literature reviews, reviews, case studies, guidelines, and theoretical and practical studies are warmly welcome.

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
