Selected Paper from TECHNIUM International Conference 2019 (TECHNIUM 2019)—New Trends on Naval Research, Sustainable Future, and Technology Development

Message from the Guest Editor

The objectives of the International Scientific Conference –Technium 2019 are to bring together research and education, to provide a networking opportunity for academics and professionals that are active in these domains, and to enable international publishing and the recognition of scientific work. Join INRES—the gateway to publishing in associated journals. Topics of interests include but are not limited to the following:

- Naval research;
- Ocean engineering;
- Marine systems;
- Renewable energy;
- Naval architecture;
- Ocean engineering.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief
