

## Special Issue

# Advancing Vehicle Aerodynamics for Energy-Efficient Vehicles

### Message from the Guest Editor

We are delighted to invite you to submit papers for our upcoming Special Issue, entitled "Advancing Vehicle Aerodynamics for Energy-Efficient Vehicles". This initiative seeks to make significant contributions to the development and aerodynamic optimization of vehicles, with a primary focus on fostering a climate-friendly environment. In the dynamic landscape of transportation, the seamless integration between vehicle aerodynamics and shape optimization is paramount for enhancing efficiency, especially in the context of the evolving realms of electrical propulsion. We encourage the submission of contributions that delve into fundamental and innovative technical developments, reviews, and case studies, as well as numerical assessment papers from diverse disciplines within the subject.

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
