

## Special Issue

# Power Converters for Energy Conversion: Design, Control and Applications

### Message from the Guest Editors

This Special Issue is dedicated to the aspects related to the integration of power electronics in power systems through studies, analyses, simulations, projects, experiments, and all other possible paths that can be followed to disclose the key points for the assessment of future power systems with power electronics. This Special Issue is the ideal place for works focusing on the dynamics of power systems and power electronics. Topics of interest include, but are not limited to, the following:

- DC–DC, AC–DC, and DC–AC converter design procedures (innovative topologies, steady-state analysis, etc.)
- Control strategies for power converters
- Conventional grid-following and emerging grid-forming control structures
- Investigation of system stability with time-domain methods (phasors, EMT) and other analytical methods (modal analysis, state-space models, transfer functions, impedance-based methods)
- Numerical methods for circuit and electromagnetic field simulations
- Characterization and modeling of power switches
- Characterization and modeling of passive components (inductors, transformers, capacitors)

---

### Guest Editors

Dr. Fabio Corti

Dipartimento di Ingegneria, Università di Perugia, Via G. Duranti 67, 06125 Perugia, Italy

Dr. Luigi Solimene

Department of Energy “Galileo Ferraris”, Politecnico di Torino, 10129 Torino, Italy

---

### Deadline for manuscript submissions

closed (30 November 2024)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba  
Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
