

## Special Issue

# Thermophysical Properties of Working Materials for Power Engineering

### Message from the Guest Editors

We trust this email finds you well. It is our pleasure to invite you to submit an article for an upcoming Special Issue of *Energies* (IF = 2.702) entitled “Thermophysical Properties of Working Materials for Power Engineering”, which will be focused on the thermodynamic and transport properties of working materials for energy-generating systems, including renewable energy. In this Special Issue, we aim to highlight new experimental data and modeling of the thermophysical properties at low, ambient or high temperature conditions, as well as at ambient or high pressure conditions of working materials including fluids, nanofluids, ionic liquids, ionanofluids, oils, natural gas, and solids for power engineering. If you plan to submit an article, please respond to [ilmutdina@gmail.com](mailto:ilmutdina@gmail.com) or [marzena.dzida@us.edu.pl](mailto:marzena.dzida@us.edu.pl) by 30 June 2021. Once you accept this invitation, you will be notified via e-mail about how to access the journal's online manuscript submission and review system.

### Guest Editors

Prof. Dr. Ilmutdin M. Abdulagatov

1. Department of Thermophysics, Geothermal and Renewal Energy  
Institute of The High Temperature Joint Institute of The Russian  
Academy of Sciences, 367030 Makhachkala, Russia  
2. Department of Physical Chemistry, Dagestan State University,  
367000 Makhachkala, Dagestan, Russia

Prof. Dr. Marzena Dzida

Institute of Chemistry, University of Silesia, Katowice, Poland

### Deadline for manuscript submissions

closed (30 June 2021)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
