

## Special Issue

# Urban Heat Island Mitigation Technologies

### Message from the Guest Editor

This special issue of *Energies* is intended to highlight recent practice and policy developments in the area of urban heat island mitigation. Given the traction climate change mitigation and adaptation currently enjoys in the public imagination and the role of cities in such mitigation, now is the opportune moment to highlight what works and why and to explore the policy and practical implications of both urban design and urban planning.

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
