

Special Issue

Carbon Neutrality Through Green Innovations—the Role of the Renewable Energy: 4th Edition

Message from the Guest Editors

This Special Issue aims to investigate how carbon neutrality can be achieved by the economies that aim for this goal, what benefits are gained from this energy transition, how can green innovation be accelerated and what the adverse outcomes are that may arise during this process. keywords:

- carbon neutrality
- climate change
- carbon footprint
- carbon reduction
- sustainable development
- renewable energy clean technologies
- green innovations
- energy efficiency improvements
- ESG issues
- CSR and non-financial performance
- energy poverty
- energy transition
- nuclear energy

Guest Editors

Prof. Dr. Mirela Panait

Prof. Dr. Magdalena Radulescu

Dr. Joanna Rosak-Szyrocka

Prof. Dr. Cosimo Magazzino

Dr. Daniel Balsalobre-Lorente

Deadline for manuscript submissions

25 May 2026

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
