

Special Issue

Logistics and Supply Chain in Energy Sector: Trends and Innovations

Message from the Guest Editors

The topic of "Logistics and Supply Chains in the Energy Sector: Trends and Innovations" is crucial to the energy industry's efficient functioning amid its ongoing transformation by converging technological advancements, sustainability, and risk management. Embracing these is vital for navigating complexities and seizing opportunities in the dynamic energy domain. Topics suitable for publication in "Logistics and Supply Chains in the Energy Sector: Trends and Innovations" encompass, but are not restricted to, the following:

- Energy efficiency.
- Escalating energy demand.
- The control of energy costs.
- Energy infrastructure capacity.
- The decarbonization of vehicles.
- Risk management.
- The influence of government policies.
- The impact of geopolitical factors.
- Policies regarding renewable energy.
- The integration of digital technology.

These themes offer a comprehensive view of the dynamic landscape within the energy sector, highlighting critical aspects influencing logistics and supply chain management while exploring innovative trends and solutions.

Guest Editors

Prof. Dr. Jereb Borut

Faculty of Logistics, University of Maribor, Mariborska cesta 7, 3000 Celje, Slovenia

Prof. Dr. Mohan Lal Kolhe

Faculty of Engineering and Science, University of Agder, Kristiansand, Norway

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
