

## Special Issue

# Energy Security and Energy Transition: Towards Sustainable Energy Systems—Second Edition

### Message from the Guest Editors

This Special Issue invites original research and reviews that examine how energy security can be maintained or even strengthened while accelerating the shift towards cleaner, more resilient, and equitable energy systems. We aim to bring together diverse perspectives, methodologies, and case studies that illuminate the pathways to a secure and sustainable energy future. We welcome contributions addressing (but not limited to) the following topics:

- Strategies and policies to enhance energy security during the energy transition;
- Integration of renewable energy sources into existing infrastructure;
- Energy access and equity in the context of sustainability and security;
- Energy efficiency as a tool for strengthening energy resilience;
- Technological innovations, including smart grids, storage, and digital solutions;
- Governance, regulation, and institutional frameworks supporting secure transitions;
- Interlinkages between energy transition, security, and climate mitigation;
- Real-world examples and best practices demonstrating effective approaches.

### Guest Editors

Prof. Dr. Ričardas Krikštolaitis

Department of Mathematics and Statistics, Faculty of Informatics, Vytautas Magnus University, Universiteto g. 10, Kaunas District, LT-53361 Akademija, Lithuania

Dr. Linas Martišauskas

1. Laboratory of Nuclear Installation Safety, Lithuanian Energy Institute, Breslaujos g. 3, LT-44403 Kaunas, Lithuania  
2. Department of Mathematics and Statistics, Faculty of Informatics, Vytautas Magnus University, Universiteto g. 10, Kaunas District, LT-53361 Akademija, Lithuania

### Deadline for manuscript submissions

28 February 2026

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
