## **Special Issue**

## Wake, Energy, and Heat 2021

### Message from the Guest Editor

I would like to extend a warm invitation to all colleagues who would like to submit their research papers to the Special Issue of *Energies* (ISSN 1996-1073; CODEN: ENERGA) on "Wake, Energy, and Heat." The Special Issue encompasses the advances in flow around bluff bodies, fluid-structure interactions, and wind/ocean energy in the fields of mechanical, civil, aerospace, ocean, chemical, energy, physics, and mathematics. Research articles, review articles, as well as short communications are welcomed. The research techniques can be experimental, theoretical, computational, or mixed. The paper should be academically excellent and have originality and novelty of applications, approaches, and fundamental outcomes.

### **About the Journal**

### Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

### **Author Benefits**

### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

### Journal Rank:

CiteScore - Q1 (Control and Optimization)
