

Special Issue

The Future of Renewable Energy: 2nd Edition

Message from the Guest Editor

This Special Issue is focused on the development of renewable energy systems. Both research articles and review articles will be considered for publication. Papers submitted to this Special Issue will undergo an unbiased and rigorous peer-review process with the aim of disseminating the most recent research and developments in the field. Topics of interest for publication include, but are not limited to:

- Solar energy and photovoltaic systems
- Wind, wave and tidal energy
- Bioenergy
- Hydrogen energy
- Geothermal technology
- Hydropower
- Energy system integration
- Energy storage
- Renewable energy for fighting climate change
- Artificial intelligence and renewable energy

Guest Editor

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
