

Special Issue

Leading the Way in Offshore Renewable Energy and Wave Energy Conversion

Message from the Guest Editor

We are pleased to invite you to contribute to our Special Issue, "Leading the Way in Offshore Renewable Energy and Wave Energy Conversion" This Special Issue will focus on recent advances, ongoing challenges and innovative solutions in the field of offshore renewable energy and wave energy conversion. We will highlight research that addresses technological, environmental and economic barriers while presenting breakthrough solutions and strategies for the large-scale deployment of marine energy conversion systems. This Special Issue invites both experimental studies and comprehensive reviews in each of these focus areas. We look forward to receiving valuable contributions that will advance knowledge, technology and sustainability related to offshore renewable energy and wave energy conversion.

Guest Editor

Dr. Luana Gurnari

Department of Information, Infrastructure and Sustainable Energy Engineering, University of Reggio Calabria, Reggio Calabria, Italy

Deadline for manuscript submissions

10 April 2026

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
