

## Special Issue

# Research on Coalbed Methane and Coal-Measure Gas: Exploration, Exploitation, and Utilization

### Message from the Guest Editors

The scope of this Special Issue encompasses studies on exploration techniques, including advanced geophysical methods and remote sensing, to identify optimal reservoirs. It also explores novel extraction technologies, reservoir engineering approaches, and sustainable utilization practices. We welcome both original research and review articles. Potential topics of interest include but are not limited to, the following:

- Characterization of coalbed methane and coal-measure gas reservoirs;
- Evaluation methods and technologies of favorable areas in coalbed methane and coal-measure gas exploration;
- Advances in coalbed methane and coal-measure gas drilling, fracturing, or drainage;
- Chemical or biological developments for the enhanced recovery of coalbed methane and coal-measure gas;
- Reservoir dynamic characterization in coalbed methane and coal-measure gas production;
- Enhanced gas recovery combined with CO<sub>2</sub> geological storage;
- Advances in coalbed methane and coal-measure gas utilization;
- Coal mine methane extraction and utilization.

---

### Guest Editors

Dr. Rui Li

School of Resources and Safety Engineering, Chongqing University, Chongqing 400044, China

Dr. Shuaifeng Lyu

School of Earth Resources, China University of Geosciences, Wuhan 430074, China

---

### Deadline for manuscript submissions

closed (24 November 2025)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba  
Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
