

Special Issue

Advances in Oil Power Transformers

Message from the Guest Editor

The is inviting submissions to a Special Issue of *Energies* on the subject area of “Advances in Oil Power Transformers”. This Special Issue will deal with these identified issues but will also deal with basic research on materials and elements leading to a better understanding of phenomena which are important in the operation of oil power transformers. Topics of interest for publication include (but are not limited to): - New design solutions used in oil power transformers; - Failures during the operation of oil power transformers (description of processes and phenomena as well as statistics); - Periodic tests of oil power transformers; - Specialized research of oil power transformers, performed by one or more of the electric, acoustic, chemical, and optical methods ; - Fundamental research of materials used for construction and during operation of oil power transformers (transformer sheets, transformer oils, etc.).

Guest Editor

Prof. Dr. Franciszek Witos

Department of Optoelectronics, Faculty of Electrical Engineering,
Silesian University of Technology, B. Krzywoustego 2, 44-100 Gliwice,
Poland

Deadline for manuscript submissions

closed (20 November 2022)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
