

Special Issue

Recent Advances in Vehicle Aerodynamics

Message from the Guest Editor

The objective of this Special Issue is to contribute to the development and optimization of vehicle aerodynamics. This will be done through enhanced scientific and multi-disciplinary knowledge transfer, in which an interaction among different areas within the subject will be encouraged. The focus will be on improved energy-efficiency and safety by taking into account the shifting landscape of electrical propulsion and autonomous driving.

We therefore invite papers on fundamental and innovative technical developments; reviews; case studies; and numerical, analytical, as well as assessment papers from different disciplines in the subject, that are relevant to the development of sustainable vehicles.

Guest Editor

Prof. Dr. Lennart Löfdahl

Department of Mechanics and Maritime Sciences, Chalmers University of Technology, 41296 Gothenburg, Sweden

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
