

Special Issue

Renewable Energy and High Efficiency Energy Systems Applied to Aerospace Vehicles and Facilities

Message from the Guest Editors

This Special Issue will cover these promising and dynamic areas of research and development. Innovative papers regarding modelling, simulation, and performance assessment of renewable and/or high efficiency energy systems are welcomed in this Special Issue. This Special Issue also looks for papers to report advances on any aspects of these developments. The manuscripts should be unpublished and report significant advancements.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
