

Special Issue

Biochar from Biomass

Message from the Guest Editor

We invite submissions to a Special Issue of *Energies* on the topic "[Biochar from Biomass](#)." The Special Issue addresses challenges and opportunities for using biomass to produce biochar and using both the production process and the biochar to benefit natural resources, users, and society. Topics of interest include, but are not limited to:

- biochar
- woody biomass
- utilization
- coproducts
- residual material
- forest management
- rural development
- greenhouse gas emissions
- ecosystem services
- carbon sequestration
- forest health
- restoration
- healthy soils
- demand, supply
- feedstock
- community resilience
- sustainability

Guest Editor

Dr. Daniel W. McCollum

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
