

Special Issue

Biofuel and Bioenergy Technology

Message from the Guest Editors

This Special Issue aims to publish high-quality research and review papers addressing recent advances in bioenergy. Studies of advanced techniques and biorefinery for biofuel production are also welcomed. Research involving experimental and numerical studies, recent developments, and novel and emerging technologies in this field are highly encouraged.

Keywords:

- biofuel
- bioenergy
- biorefinery
- physical conversion
- thermochemical conversion
- chemical conversion
- biological conversion
- production optimization
- process design
- thermodynamic analysis

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
