

Special Issue

Utilization of Biomass Energy in Era of Industry 4.0

Message from the Guest Editor

This Special Issue mainly covers original research and studies related to the aforementioned topics, including, but not limited to, thermochemical conversion (combustion, pyrolysis, gasification), biological conversion (fermentation, anaerobic digestion), physical conversion (pelletizing, densification, extraction), and so on. Papers selected for this Special Issue will be subject to a rigorous peer review procedure with the aim of the rapid and wide dissemination of research results, developments, and applications.

- Pre-treatment and treatment
- Physical conversion
- Chemical conversion
- Thermochemical conversion
- Biological conversion
- Fermentation
- Extraction
- Anaerobic digestion
- Densification
- Torrefaction
- Pyrolysis

Guest Editor

Prof. Dr. David Herak

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
